

NAME- NIKUNJ PATEL , STUDENT ID -9047741, JOURNAL-2 (WEEK-2)

Week 2 started with in class lessons .during class we learned how to create branches , and also practiced scanf, getchar, getchar_scanf, if , if _else, switch_case, while , while_infinite_DANGEROOUS , while_break, conio and conio_while.

We also covered how to get a single char input from a user using either **scanf** or **conio.h**.

After class I watched all tutorial as well as used above statements to finish assignment. And at the end we also created short demo for PowerPoint presentation.
